

IEEE-EMBS Buenaventura Chapter

www.bv-embs-chapter.com

Stem Cell Treatment of Brain Tumors and Cancers John Yu MD, Cedars-Sinai Medical Center Jan 31st, 2007

Towards a Wearable Kidney Dr. David B.N. Lee UCLA Veterans Hospital June 27, 2007

Engineering a Better Cancer Fighter Dr. Mark Davis, CalTech, City of Hope Feb 28, 2007

Development of the MedTone Insulin Inhaler Darlene Rosario MannKind July 25, 2007

Epilepsy and Brain MappingWilliam Sutherling MD, Huntington Institute
Mar 28, 2007

Nanopulse Energy for Skin Cancer Cure Dr. Martin Gundersen USC Department of Physics and Astronomy September 26, 2007

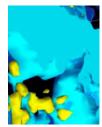

Planetary Protection of Biological Samples Returning to Earth Jason Kastner, JPL Apr 25, 2007

Non-invasive Optical Imaging and Spectroscopic Technologies Dr. Vishal Saxena Childrens Hospital LA, Saban Research Institute October 24, 2007

Strategic Partnering and Startup Funding for Biomedical Industry Stephanie Yanchinski, Pasadena Entretec May 30, 2007

Student Presentation on Tissue Engineering Biomedical Engineering Department, California Lutheran University November 14, 2007

Our speakers are individuals with busy lives that may interfere with this program. Topics and speakers might change on a short notice – we appreciate your understanding. We will do our best to alert you of any changes.

NETWORKING

- Come 1 hour before the meeting, and join us for dinner in the Ahmanson Science Building atrium.
 Meet the speaker, the officers, and other members.
- Our audience is comprised of medical professionals, academics, engineers of all types, biologists, investors, attorneys, recruiters, and university students.
- This is an effective way to network and meet new people in a comfortable and casual setting.

RESOURCES

- Become an IEEE member at www.ieee.org
- Between jobs? Two great local organizations to contact: Outstanding Professional Employment Network Simi Valley www.ventura.org/earn/open, and Ventura Highway Networking Group, Calabasas www.geocities.com/venturahighwaygroup

HOW YOU CAN HELP US

- Spread the word on our terrific chapter and upcoming events.
- Bring friends, spouses, colleagues to our meetings

OFFICERS

- Steve Johnson, steve@net-link.net
- Nathalie Gosset, gosset@ieee.org
- David Steinmeier, david@microjoining.com
- Harry Croner, hcroner@earthlink.net
- Mike Shaw, mcshaw@clunet.edu
- Pat Jacobs, advancedpersonnel@adelphia.net
- Brian Rasnow, brasnow@amgen.com
- Kouros Azar, azar@adelphia.net
- Abigail Corrin, acorrin@clunet.edu

DINNER

- Dinner is available one hour before meeting times for your convenience, and as a platform for networking prior to the talk.
- Dinner is \$10 per person, payable at the meeting.

NOTES

 If you are an engineer, become an IEEE member and join the Engineering in Medicine and Biology Society.

BUENAVENTURA I EEE-EMBS

2005 Best Chapter of the Year!

2007 Overview

Biomedical Engineering is the application of engineering, science, and technology to the solution of problems in medicine and biology

Join us in creating a chapter which fosters the exchange of biomedical engineering ideas

Chapter Sponsors:

- CLU Center for Integrated Science and Bioengineering
- Alfred Mann Institute
- MicroJoining Solutions
- Kouros Azar, MD
